PROFILE SUMMARY

Product-focused UI/UX Designer and Full Stack Developer with a background in AI & Data Science, skilled in designing intuitive digital experiences and scalable web applications. Proficient in Figma, React.js, FastAPI, and Python, with hands-on experience in full-stack development and user-centered product building.

SKILLS

Design Tools	Figma · Wireframing · Prototyping · User Flows · Design Systems · WCAG Accessibility · Visual Hierarchy · Glassmorphism · Smart Animate · Responsive Design
Frontend	React.js · HTML5 · CSS3 · JavaScript · Tailwind CSS · Vercel · Expo Go
Backend & AI	Python · FastAPI · Flask · LangGraph · LangChain · NLP · Machine Learning · RAG
Data & DB	MySQL · MongoDB · Pandas · NumPy · Scikit-learn · Power BI
Platforms	Git · GitHub · AWS · Azure · Jupyter Notebook · Google Colab · Canva

PROJECTS

DERTZ Pizza — Mobile App UI/UX Design

Figma · Prototyping · Smart Animate · Glassmorphism · Design Systems · Mobile UI

Designed a premium 10-screen pizza delivery mobile app in Figma featuring glassmorphism, vibrant gradients, and a complete design system. Built cinematic splash animations using Smart Animate with multi-frame sequencing, Ease Out transitions, and layered motion design — recruiter-worthy prototyping showcasing advanced Figma skills.

ProposeIQ — AI-Powered Proposal Evaluation Product

React.js · Figma · FastAPI · LangGraph · MongoDB · Electron · Multi-Agent AI

Designed the end-to-end product UI in Figma — user flows, component library, and design system — then built the full-stack application with React frontend and FastAPI backend. Integrated a 4-agent LangGraph pipeline (Sales, Technical, Pricing, Master) with real-time SSE streaming and PDF/Word export for automated RFP evaluation.

HewQ — Freelancer Work & Invoice Manager

Figma · UX Research · User Flows · Interactive Prototyping · Mobile-First Design · SaaS

Designed a mobile-first SaaS application for freelancers to manage clients, projects, invoices, payment tracking, and income analytics, backed by UX research, user flows, and interactive prototyping in Figma.

AI Resume Screening System

Python · Flask · NLP · Machine Learning · Web UI · Dashboard Design

Built an NLP-based resume screening system with a structured web dashboard and clean UI. Used TF-IDF feature extraction and a Random Forest classifier to automate domain-based candidate evaluation and improve screening efficiency.

PDF Summarizer with Conversational Chatbot

Python · NLP · Transformers · Streamlit · PyMuPDF

Engineered an AI-powered PDF summarization chatbot that reduced document review time by 60% and enabled 45% faster query resolution using transformer-based NLP pipelines and real-time conversational UI.

INTERNSHIP & EXPERIENCE

Full Stack Intern · NoviTech R&D Private Limited, Coimbatore

Jan 2025

- Designed and built responsive interfaces using HTML, CSS, and React.js — applying UI principles of visual hierarchy, spacing, and component reuse for consistent cross-device layouts.
- Integrated RESTful APIs to connect frontend interactions with backend services, optimising load performance and ensuring smooth user experience.
- Delivered UI enhancements aligned with design best practices — improving page structure, readability, and overall interface quality.

- Performed data cleaning, preprocessing, and feature engineering on real-world datasets.
- Built and evaluated regression and classification models using Scikit-learn.
- Applied exploratory data analysis (EDA) and Power BI visualisations to derive actionable business insights.

LEADERSHIP

- Led visual identity and brand guidelines for the ACM Student Chapter — designed posters, digital assets, and motion graphics with consistent, user-focused design language.
- Managed content strategy and digital outreach, driving engagement across the AI & DS Association community.

ACHIEVEMENTS

- EY Techathon 6.0 — AI Agents Track (Advanced Round): Advanced to the competitive round by building and pitching an AI agent-based solution under tight deadlines at Ernst & Young.
- Organised and executed 2 national-level hackathons, managing end-to-end planning, coordination, and participant experience.
